DON EMMANUEL

DON EMMANUEL ANUNNAKI CORONA FINA 4 X 38

The most discreet format in the Anunnaki line and one of the portfolio's best sellers. Created by Don Emmanuel in partnership with legendary Master Blender Eladio Díaz and produced at Tabacalera Díaz Cabrera in the Dominican Republic. The same seventobacco blend found across the line, concentrated in a slim ring gauge that delivers the full Anunnaki experience in less time.

ANUNNAKI

Inspired by Sumerian mythology, the Anunnaki line is born from the meeting of Dominican tobacco tradition and the narrative of a brand always connected to the energies of the universe. Each vitola in the line carries a chapter of that story.

The slim ring gauge brings the wrapper closer to the palate and reveals the blend with greater clarity from the first draws. This is the Anunnaki for the break in the day, the morning coffee, the end of a meeting, the trip, with the same leaf and the same construction as the larger vitolas.

A short, direct, balanced smoke. The medium strength holds from start to finish, with the quick evolution typical of slim formats, delivering complexity without demanding the time of a toro.
